## PRESS RELEASE

**Moneõ** is a Warsaw-based electronic artist, audio engineer, and sound designer. His debut EP *i know you will read this* was released on **March 21, 2025**, blending detailed, emotionally charged electronica into a record that is both experimental and deeply personal.

*i know you will read this* unfolds a rich sonic palette that feels both futuristic and organic. Intricate production layers distorted textures with ethereal melodies, creating immersive and evocative soundscapes while maintaining a raw emotional core.

Each track unfolds like an open letter - a confession, a plea, or a farewell - addressed to someone who may never read it. That narrative concept gives the EP its emotional depth and directness.
